ProGuide Tech Solutions

Practical technology for structure, accountability and clarity

CAPABILITY STATEMENT

proguidetechsolutions.com
proguidetechsolutions@gmail.com

COMPANY OVERVIEW

ProGuide Tech Solutions is a multidisciplinary technology firm based in Crowley, Texas. We are a small, hands-on team by design: senior people stay directly involved from the first conversation through launch and beyond. We serve community associations, nonprofits, legal service providers, public agencies and small businesses.

CORE COMPETENCIES

- Advanced software engineering and full-stack development
- Artificial intelligence and intelligent automation
- Cybersecurity and application security
- Cloud infrastructure and systems architecture
- Database engineering and systems integration
- Enterprise software and business applications
- Mobile application development
- Workflow automation and operational management
- Legal technology and document management
- Technical research, systems analysis and software optimization

TECHNICAL EXPERTISE: 30 AREAS IN FIVE DISCIPLINES

- Advanced software engineering and development
- Artificial intelligence and intelligent automation
- Cybersecurity and digital infrastructure
- Advanced engineering and emerging technologies
- Business technology and digital transformation

DIFFERENTIATORS

- Senior-led: leadership stays directly involved from first conversation through launch
- Lead Technical Architect with 35+ years of programming and engineering experience
- Listen first, then demonstrate: short presentations before any commitment
- Plain language, clear plans, no jargon
- Long-term partnership after launch
